

LIKA BEHAR

What made you become a jewelry designer? The realization that one must do what one loves. It came to me fairly late in life. It is my third career. **Why do you love jewelry design?** I always loved jewelry and I take great joy in seeing women's eyes light up when they put on a piece I designed. I love to share my passion. **What jewelry do you wear everyday?** I wear my hand hammered 24-carat bands with my platinum and diamond wedding band. They not only accentuate and enhance the look of my diamonds, but paradoxically, they make the ring look more casual. **What is your greatest inspiration?** Ancient Greece, Rome and Byzantium. History and jewelry making techniques of that era. **What is your favorite book?** Wuthering Heights by Emily Bronte and The Bridge of San Luis Rey by Thornton Wilder. I recently read Cathedral of the Sea by Ildefonso Falcones, which I really enjoyed.
